Declass Review by NGA.

Dear Ed:

X1

Following is revised proposed Statement of Work, etc., acceptable to DPTC. Your comments are desired. [redacted] is intended as DPTC Technical Representative of Contracting Officer in counterpart position to [redacted]

X1

25)

X1

1. STATEMENT OF WORK

The Contractor shall provide the Government with development support which will lead to improved methods, techniques and equipment utilized in exploiting information obtained from various programs utilizing photographic sensors. In the performance of this work the Contractor shall investigate, through studies, tests and the fabrication and use of engineering breadboard equipment, new methods or devices which will further the state of the art in photographic techniques and practices as it pertains to improved extraction of information from photographic materials.

2. AUTHORIZATION TO PROCEED

Contractor shall undertake development efforts under this contract only pursuant to specific authorization of the Technical Representative of the Contracting Officer. Such authorization shall be given in the form of work orders of a nature and to be issued as described below.

A. Authorization for general development efforts in an entire technical area. Authorization to begin work may be given orally by the Technical Representative of the Contracting Officer and will be promptly confirmed in writing.

B. Authorization to proceed with a specific project within an authorized technical area when the cost of the project is estimated to be [redacted] more (Significant Project) may be given orally by the Technical Representative of the Contracting Officer and will be promptly confirmed in writing.

C. Authorization for projects within an authorized technical area but estimated to cost less than [redacted] may be given orally by the Technical Representative of the Contracting Officer and need not be confirmed in writing.

5X1
3. REPORTS

Progress on all work underway and plans for the future will be reported briefly on a monthly basis by the Contractor for the benefit of the Technical Representative of the Contracting Officer. In addition, a written quarterly review summarizing results obtained will be submitted by the Contractor. This shall include information concerning money expended for each Significant Project to date and a re-estimate of money required to complete the project. The Contractor will be expected to provide the Technical Representative of the Contracting Officer written reports concerning specific development efforts when deemed advisable by the Government as well as such verbal elaborations as the Technical Representative or Contracting Officer may desire. Text and format of all reports shall support the need of the Technical Representative of the Contracting Officer to appropriately determine the technical and financial progress of each development project assigned.

4. COST

A. Costs shall be accumulated to each Significant Project if applicable, otherwise, to technical area in which the work falls.

B. CPTV in accordance with AGPR provisions, as applicable.

5. TESTING AND EVALUATION

Testing and evaluation of equipment under this development effort may

Approved For Release 2005/02/17 : CIA-RDP78B04770A001000040110-6
be performed in the Government laboratory operated by the Contractor in his plant

X1

[REDACTED] All labor and burden costs for such testing and

evaluation will be charged to and funded under this contract.

6. PATENTS

The Contractor will assign to the Government, in accordance with the Patent Rights Clause of this contract, the right to manufacture any equipment resulting from this contract. In this connection the Contractor shall release to the Government all technical data, drawings and prototype equipment developed under this contract. In this connection it is recognized that equipment developed under this contract normally be of prototype or breadboard nature and, as such, may not be suitable for reproduction. The drawings referred to above are those utilized for making such prototype or breadboards.

7. TECHNICAL AREAS OF INVESTIGATION

The Contractor may, within the scope of this Work Statement, pursue such developmental activities in technical areas indicated below as authorized. Other areas of similar interest may also be indicated for developmental activity.

- A. Viewing equipment
- B. Projection techniques
- C. Color enlarging
- D. Data handling
- E. Image enhancement
- F. Clean room techniques
- G. Light sources
- H. Measurement techniques
- I. LEVEL OF EFFORT

The level of effort authorized in the performance of this contract shall not exceed twenty-five (25) man-years time. Said time shall include that of scientists, engineers and direct support personnel. This level of effort may be increased by mutual agreement.

SECRET

This is a draft proposal and accordingly has not yet been submitted for regular Contracting Officer approval.
